

## **DORMITORY DINING**

On weekdays, breakfast and dinner are included as part of the boarding program but lunch is purchased separately by the students in the school cafeteria. On Saturdays, all three meals are included whereas on Sundays, only breakfast is served in the dormitory.

Dinner is served at 5pm and requests for late meals can be made before that to an advisor. Late meals must be picked up by 9pm except by special arrangement.

Tasty and nutritious cuisine with variation between American and international food is served in the dining hall. The school is able to accommodate any special dietary needs.
