

DORMITORY ADVISORS

The four dormitory advisors' role is to provide support for each boarding student's welfare, academic progress and personal growth. The advisors watch out for each student and ensure they are well connected with various aspects of the school, encouraging them to optimize the myriad of opportunities that LMH offers.

The advisors also serve as confidantes, providing guidance and advice to students with personal issues. They are available to communicate with parents if needed, by email, phone or in person.
